3-YEAR SERIES

SESSION 12 • YEAR THREE — RESTORING & MAINTAINING IMPLANTS

The Complete Implant Patient

From Referral to Restoration

PRESENTED BY

Jonathan Misch, DDS, MS

CEO, Misch Implant Institute

@drjmisch

A capstone tying together all three years. We follow complete patient cases from GP evaluation through extraction, ridge management, placement, and final restoration — showing exactly where every decision was made and why. Heavy on cases, closing with an open Q&A.

LEARNING OBJECTIVES

01 Trace a complete case from GP evaluation through final restoration.

02 Pinpoint where each decision was made, by whom, and why it mattered.

03 Reinforce the GP–surgeon collaborative framework across the full arc of care.
