

SESSION 06 • YEAR TWO — UNDERSTANDING THE PROCEDURES

# Immediate Implants

## Who's the Right Patient and Why Timing Matters

PRESENTED BY

**Jonathan Misch,**  
**DDS, MS**

CEO, Misch Implant Institute

@drjmisch

Same-day placement is one of the most asked-about procedures among patients — and most misunderstood among GPs. We cover what makes a socket favorable, what makes a case too risky, how soft tissue and esthetics factor in, and what the patient timeline looks like.

### LEARNING OBJECTIVES

- 01** Identify the criteria that make a socket favorable for immediate placement.
- 02** Recognize the findings that make a case too risky for same-day placement.
- 03** Explain the patient experience, esthetic factors, and timeline of immediate implants.
